INTRODUCTION

Emergencies in schools must be addressed in an expeditious and effective manner. Schools are at risk for acts of violence, natural, and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law. Project SAVE is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The **Whitesville Central School District** supports the SAVE Legislation and intends to facilitate the planning process. The Superintendent of Schools encourages and advocates on-going district-wide cooperation and support of Project SAVE.

In addition, emergency/crisis management is a continuous process in which all phases of this plan are being reviewed and revised. Good plans are never finished. They can always be updated based on experience, research, and changing vulnerabilities. With that in mind, the **Whitesville Central School District** also utilizes the methodology set forth by the United States Department of Education crisis planning model. This model consists of four steps that form a perpetual cycle. These steps are as follows:

Mitigation/Prevention addresses what schools and districts can do to reduce or eliminate risk to life and property.

Preparedness focuses on the process of planning for the worst-case scenario.

Response is devoted to the steps to take during a crisis.

Recovery deals with how to restore the learning and teaching environment after a crisis.

EMERGENCY RESPONSES

The following procedures have been developed for the safety of students, staff and visitors to the school in the event of an emergency.

1. LOCKDOWN

There may be times when it is necessary to **LOCKDOWN** a building in the event of a event within a building. The Building Principal or Designee is the person who usually initiates a **LOCKDOWN** though anyone in the building may do so. All district staff members shall be trained in the procedures specific to their job duties. (The district has specific detailed plans that will not be shared in this document).

2. LOCKOUT

A **LOCKOUT** is a response to an actual or potential threat from outside the school building. . (The district has specific detailed plans that will not be shared in this document).

3. SHELTER IN PLACE

There may be times when it is necessary to move some or all of the school population to a single or multiple locations within a school building. In most cases, a **SHELTER IN PLACE** is done when there is a threat of or actual weather related incident. (The district has specific detailed plans that will not be shared in this document).

4. EARLY DISMISSAL

An **EARLY DISMISSAL** is just that. An **EARLY DISMISSAL** can be weather related, building equipment failure, or energy supply failure. An **EARLY DISMISSAL** does not justify the urgency of an evacuation.

5. EVACUATION

In the event that a building or buildings need to be evacuated, the Building Principal(s) or Designee(s) will issue that directive via the public address system. **EVACUATION** of the building(s) will be accomplished by using the emergency fire evacuation routes. . (The district has specific detailed plans that will not be shared in this document).

6. EVACUATION OF PERSONS WITH SPECIAL NEEDS

It is the responsibility of the Superintendent of Schools, School Administrators, Building Principals, and the School Nurse to develop and implement an emergency evacuation plan for persons with disabilities.

The plan shall include:

- a) pre-plan for use of ramps
- b) designation of staging area where persons with disabilities are to be taken promptly for safe exit
- c) training of staff in the following activities:
 - lifting and carrying wheelchair students and staff when fire or other rescue personnel are not readily available

- planning for the notification of deaf students
- checking lavatories and special education areas
- inclusion of persons with disabilities in all emergency drills
- medical needs requiring specific procedures

Implementing School Security

Building administrators have the authority to determine the following:

- Entrance and hall monitoring practices based upon building configurations and age level of students
- Visitor, substitutes – sign in and identification badge use
- Planning and timing of secondary school drug searches using police dogs
- Recommendations to the district-wide safety committee
- The timing of custodial checks to the building on weekends and weekdays

Other Response Actions – (The district has specific detailed plans that will not be shared in this document).

7. IMPLIED OR DIRECT THREATS OF VIOLENCE

The school district has enacted policies and procedures dealing with violence. These policies and procedures deal with the safety of the school community as well as the range of discipline of those making the threat or committing the act of violence.

8. ACTS OF VIOLENCE

The district recognizes that appropriate response to acts of violence by students, teachers, other school personnel and visitors varies greatly depending upon the actual threat or act as well as the magnitude of such emergency.

9. MEDIA NOTIFICATION PLAN

The media plan addresses who is designated to meet/talk with the media. All district/media communication during an emergency must flow through the designated individual to prevent miscommunication or inaccurate information from being released.

10. PARENT/GUARDIAN NOTIFICATION PLAN

Addresses the need for a separate plan to notify parent/guardian in the event of an emergency. The plan provides the necessary guidance for district representatives to effectively inform, contact and release students to parent/guardian during an emergency.

11. POST INCIDENT RESPONSE / RECOVERY

Provides guidance to district representatives for initiating a post incident response to an emergency or tragic event. Specific guidance is given to establishing crisis intervention teams and Critical Incident Stress De-briefing teams and how to utilize them.

RESPONDING TO THREATS AND ACTS OF VIOLENCE

In the event of a violent incident, potential incident, or intruder on school grounds (direct or implied threats), the building office staff or administrator will contact 911.

Situational Response

Plans have been developed through the district committees that deal with the following situations:

1. Intruder, violence, hostage

Use of the district's bus fleet and drivers, other staff and vehicles and large group facilities in proximity to the school are used in evacuation procedures.

2. Coordinating District Resources and Manpower

Through the district level response team, superintendent, other administration, head custodian and head of transportation, appropriate decisions are made to supplement procedures established by local police, fire officials, and emergency response agencies.

Post- Incident Coordination and Communication

1. A post-incident plan has been established for communicating with families and reuniting students with families. (That plan is not shared in this document)
2. Mental Health Services – The post-incident team may consist of additional counselors from other school districts along with the Counselor, Psychologist and Student and Family Support Specialist from our own district.
